

REFLECTIONS Counter Top POU Water Coolers

Product:

Hot & Cold or Cook & Cold
Point of Use Cooler

Models:

RC115, RC215

Features:

Sophisticated Refrigeration and Heating System.
Solid One Piece Cabinet Made From High Density Polyethylene is Extremely Durable And Easy To Clean
High Quality 1.7 Amp Compressor Chills Water Fast
6.0 Amp Heater Delivers Plenty of Hot Water
Removable, One Piece, Dishwasher Safe, Drip Tray
Tomlinson Faucets Including Child Safety Hot Water Valve
304 Stainless Steel Reservoir Delivers Clean, Crisp, Clear Water Without Taste or Odor Complaints
Tough One Piece 304 Stainless Hot Tank Provides Safe, Leak free, 190° F Hot Water
CSA / US Certified

31.7 Lbs	16.9x12.4x16.6 in	1.7A	110V	.16 Kwh

Cabinet:

Designed for today's tough environment! This high quality cabinet will withstand heavy use and abuse but still protect the internal mechanical components of the Reflections cooler so you can always count on quality water delivery. No metal cabinet components assure no rust, no scratches, no complaints and a built-in UV inhibitor means this cooler will always look good.

Faucets:

MTN has teamed up with Tomlinson, the industry leader in faucet design, to provide the most trouble free and safe faucets available. The "child resistant" faucet is designed to be easy for adults but difficult for children helping you keep your young ones safe.

Smart Design:

Little things like a one piece, easy to clean drip tray or the hard to get dirty but easy to keep clean, pebble grain finish of our cabinet demonstrates the attention to detail

and pride in workmanship that goes into every Reflections cooler.

Refrigeration System:

Every Reflections cooler comes equipped with a top quality, very quiet, 1.7A compressor. Even though it's quiet you can count on a quick (8 minutes on average) recovery time.

Hot Water:

The solid 304 Stainless Steel, one piece, ½ Gallon hot water tank safely stores plenty of hot water when you need it and the 575 watt heat band provides quick recovery (2.5 minutes on average) for quick delivery.

Cold Water Reservoir:

The easy to clean, 1 gallon cold water reservoir is easy to clean and maintain. This tough 304 Stainless Steel won't scratch and crack like plastic is prone to do.

*Serving a
thirsty world*
